American Journal of Physiology: Gastrointestinal and Liver Physiology

No. 1. JANUARY 1995

INVITED REVIEW

Vagovagal reflex control of digestion: afferent modulation by neural and "endoneurocrine" factors
R. C. Rogers, D. M. McTigue, and G. E. Hermann G1

Prolactin increases mRNA encoding Na^+-TC cotransport polypeptide and hepatic Na^+-TC cotransport
Y. Liu, T. Ganguly, J. F. Hyde, and M. Vore G11

Expression of sodium-independent organic anion uptake systems of skate liver in *Xenopus laevis* oocytes
E. Jacquemin, B. Hagenbuch, A. W. Wolkoff, P. J. Meier, and J. L. Boyer G18

Regulation of goblet cell degranulation in isolated pancreatic ducts
S. R. Hootman and J. de Ondarza G24

Cathepsin L mediates intracellular ileal digestion of gastric intrinsic factor
M. M. Gordon, T. Howard, M. J. Becich, and D. H. Alpers G33

Do pancreatic proteases play a role in processing prolactase and/or in the postweaning decline of lactase?
P. Keller, J.-C. Poirée, J. Giudicelli, and G. Semenza G41

Changes in circulatory status and transport function of the liver induced by reactive oxygen species
S. Kawamoto, S. Tashiro, Y. Miyauchi, and M. Inoue G47

Inhibition of bombesin-stimulated acid secretion by immunoneutralization of gastrin in dogs
T. O. G. Kovacs, K. C. K. Lloyd, H. Wong, and J. H. Walsh G54

Nitric oxide pathway in cat esophagus: localization of nitric oxide synthase and functional effects
L. Ny, P. Alm, B. Larsson, P. Ekström, and K.-E. Andersson G59

Intestinal peptide YY: ontogeny of gene expression in rat bowel and trophic actions on rat and mouse bowel
G. Gomez, T. Zhang, S. Rajaraman, K. N. Thakore, N. Yanaihara, C. M. Townsend, Jr., J. C. Thompson, and G. H. Greeley G71

Gastrin and carbachol require cAMP to elicit aminopyrine accumulation in isolated pig and rat parietal cells
Z.-Q. Li, J. L. Cabero, and S. Mårdh G82

Phenylalanine-stimulated secretion of cholecystokinin is calcium dependent
A. W. Mangel, V. Prpic, H. Wong, S. Basavappa, L. J. Hurst, L. Scott, R. L. Garman, J. S. Hayes, A. I. Sharara, N. D. Snow, J. H. Walsh, and R. A. Liddle G90

Tonic responses of canine proximal colon: effects of eating, nutrients, and simulated diarrhea
G. Basilisco, S. F. Phillips, J. J. Cullen, and M. Chiravuri G95

Activation of somatostatin receptor subtype 2 inhibits acid secretion in rats
K. C. K. Lloyd, J. Wang, K. Aurang, P. Grönhed, D. H. Coy, and J. H. Walsh G102

Effects of female sex hormones on mitochondria: possible role in acute fatty liver of pregnancy
S. Grimbert, C. Fisch, D. Deschamps, A. Berson, B. Fromenty, G. Feldmann, and D. Pessayre G107

Enterocyte respiration rates in feline small intestine exposed to graded ischemia
D. D. Henninger, D. N. Granger, and T. Y. Aw G116

Mucosal mast cells and developmental changes in gastric absorption
A. G. Catto-Smith and J. L. Ripper G121

Criteria for objective definition of transient lower esophageal sphincter relaxation
R. H. Holloway, R. Penagini, and A. C. Ireland G128

Adaptation of rat gastric mucosa to aspirin requires mucosal contact
J. L. Wallace, G. W. McKnight, and C. J. Bell G134

Distinguishing normal and glucocorticoid-induced maturation of intestine using bromodeoxyuridine
N. N. Nanthakumar and S. J. Henning G139

Duodenal pH governs interdigestive motility in humans
W. Woodtli and C. Owyang G146

Tobacco cigarette smoke aggravates gastric ulcer in rats by attenuation of ulcer margin hyperemia
F. Iwata and F. W. Leung G153

The tachykinin receptors inducing contractile responses of canine ileum circular muscle
E. E. Daniel, M. B. Parrish, E. G. Watson, J. E. T. Fox-Threlkeld, D. Regoli, and K. D. Rainsford G161

Effects of sex steroid hormones on gastric emptying and gastrointestinal transit in rats
T.-S. Chen, M.-L. Doong, F.-Y. Chang, S.-D. Lee, and P. S. Wang G171

Nitric oxide causes hyporeactivity to phenylephrine in isolated perfused livers from endotoxin-treated rats
C. M. Pastor and T. R. Billiar G177

Hepatocyte nitric oxide biosynthesis inhibits glucose output and competes with urea synthesis for L-arginine
J. Stadler, D. Barton, H. Beil-Moeller, S. Diekmann, C. Hierholzer, W. Erhard, and C.-D. Heidecke G183

No. 2. FEBRUARY 1995

Intralobular zonal heterogeneity and hepatic indicator dilution curves
Z.-S. Cai, B. A. Luxon, and E. L. Forker G189

Luminal dilution caused by certain mild irritants and capsaicin contributes to their gastric mucosal protection
Y. Hatakeyama, M. Matsuo, M. Tomoi, M. Ohtsuka, and K. Shimomura G200

Is nitric oxide the final mediator regulating the migrating myoelectric complex cycle?
A. Rodríguez-Membrilla, V. Martínez, M. Jiménez, E. Goñalons, and P. Vergara G207

Solubilization of receptors for pancreatic polypeptide from rat liver membranes
T. D. Nguyen, M. S. Wolfe, and G. G. Heintz G215

Vitamin A trafficking in Caco-2 cells stably transfected with cellular retinol binding proteins
T. W. Lissoos, A. E. Davis, and M. S. Levin G224

Physiology of oropharyngeal swallow in the cat: a videofluoroscopic and electromyographic study
M. Kobara-Mates, J. A. Logemann, C. Larson, and P. J. Kahrilas G232

Lovastatin induces synthesis of cholesterol, which acts as a secretagogue of biliary phospholipids in rats
W. G. Linscheer, B. Atreyee, K. M. Uma, W. John, N. Sándor, and N. Jyotirmoy G242

Stability of circadian and minor cycles of exocrine pancreatic secretion in atropine- and MK-329-infused rats
D. Maouyo, D. Guan, N. Rivard, J. W. Adelson, and J. Morisset G251

Hemileaflet susceptibility to oxidative damage in the intestinal brush-border membrane
D. Jourd'Heuil, S. Mehta, and J. B. Meddings G260

Characterization of PGE_2 receptors in isolated rabbit colonic crypt cells
F. R. Homaidan, L. Zhao, and R. Burakoff G270

Influence of acid and angiogenesis on kinetics of gastric ulcer healing in rats: interaction with indomethacin
A. Schmassmann, A. Tarnawski, B. M. Peskar, L. Varga, B. Flogerzi, and F. Halter G276

Role of vagal and splanchnic capsaicin-sensitive afferents in enterogastric inhibition of acid secretion in rats
E. Saperas, J. Santos, and J.-R. Malagelada G286

Effects of 5-HT alone and its interaction with TRH on neurons in rat dorsal motor nucleus of the vagus
R. A. Travagli and R. A. Gillis G292

Ursodeoxycholic acid inhibits glucagon-induced cAMP formation in hamster hepatocytes: a role for PKC
B. Bouscarel, T. W. Gettys, H. Fromm, and H. Dubner G300

Downregulation of *E. coli*-induced TNF-α expression in perfused liver by hypoxia-reoxygenation
L. A. Wibbenmeyer, A. J. Lechner, C. F. Munoz, and G. M. Matuschak G311

The phrenic ampulla: distal esophagus or potential hiatal hernia?
S. Lin, J. G. Brasseur, P. Pouderoux, and P. J. Kahrilas G320

Disassembly of rat pancreatic acinar cell cytoskeleton during supramaximal secretagogue stimulation
J. Jungermann, M. M. Lerch, H. Weidenbach, M. P. Lutz, B. Krüger, and G. Adler G328

Presynaptic inhibition by serotonin of nerve-mediated secretion of pancreatic amylase
A. L. Kirchgessner and M. D. Gershon G339

Cholestasis is associated with preproenkephalin mRNA expression in the adult rat liver
N. V. Bergasa, S. L. Sabol, W. S. Young III, D. E. Kleiner, and E. A. Jones G346

Inhibition of gastric mechanoreceptor discharge by cholecystokinin in the rat
D. Grundy, V. Bagaev, and K. Hillsley G355

Nitric oxide dilates tight junctions and depletes ATP in cultured Caco-2BBe intestinal epithelial monolayers
A. L. Salzman, M. J. Menconi, N. Unno, R. M. Ezzell, D. M. Casey, P. K. Gonzalez, and M. P. Fink G361

Enteropathogenic *Escherichia coli* adherence to intestinal epithelial monolayers diminishes barrier function
J. Spitz, R. Yuhan, A. Koutsouris, C. Blatt, J. Alverdy, and G. Hecht G374

Induction of liver growth in normal mice by infusion of hepatocyte growth factor/scatter factor
F. Roos, A. M. Ryan, S. M. Chamow, G. L. Bennett, and R. H. Schwall G380

LETTERS TO THE EDITOR

Inhibiting gastric H^+-K^+-ATPase activity by omeprazole promotes degeneration and production of parietal cells
H. F. Helander; J. G. Forte and S. M. Karam G387

No. 3. MARCH 1995

Influence of normal aging on oral-pharyngeal and upper esophageal sphincter function during swallowing
D. W. Shaw, I. J. Cook, M. Gabb, R. H. Holloway, M. E. Simula, V. Panagopoulos, and J. Dent G389

Gut phospholipase A_2 mediates neutrophil priming and lung injury after mesenteric ischemia-reperfusion
K. Koike, E. E. Moore, F. A. Moore, F. J. W. Kim, V. S. Carl, and A. Banerjee G397

Defective interleukin-1-induced ACTH release in cholestatic rats: impaired hypothalamic PGE_2 release
M. G. Swain, M. Maric, and L. Carter G404

Cardiac β-adrenoceptor-effector coupling in portal vein-stenosed rats
J. H. Zavecz, H. D. Battarbee, and J. M. O'Donnell G410

Polyamines alter intestinal glucose transport
L. R. Johnson, P. D. Brockway, K. Madsen, J. A. Hardin, and D. G. Gall G416

Relationship between surface electrogastrography and antropyloric pressures
W. M. Sun, A. Smout, C. Malbert, M. A. L. Edelbroek, K. Jones, J. Dent, and M. Horowitz G424

Expression of prolactin and growth hormone receptor genes and their isoforms in the gastrointestinal tract
M. Nagano, E. Chastre, A. Choquet, J. Bara, C. Gespach, and P. A. Kelly G431

In vivo and in vitro influence of human recombinant hemoglobin on esophageal function
S. Chakder, G. J. Rosenthal, and S. Rattan G443

Chronic iron overload causes activation of rat lipocytes in vivo
G. A. Ramm, S. C. Y. Li, L. Li, R. S. Britton, R. O'Neill, Y. Kobayashi, and B. R. Bacon G451

Enhanced endothelium-dependent vasodilation in patients with cirrhosis
A. Albillos, I. Rossi, G. Cacho, M. V. Martínez, I. Millán, L. Abreu, C. Barrios, and P. Escartín G459

Cholinergic and VIP-ergic pathways mediate histamine H_2 receptor-induced cyclical secretion in the guinea pig colon
H. J. Cooke, Y.-Z. Wang, R. Reddix, and N. Javed G465

Quantifying oxidative injury in the liver
R. S. Poggetti, E. E. Moore, F. A. Moore, K. Koike, R. Tuder, B. O. Anderson, and A. Banerjee G471

Organic cation transport by rat liver lysosomes
R. H. Moseley and R. W. van Dyke G480

Clostridium difficile toxin B activates calcium influx required for actin disassembly during cytotoxicity
R. J. Gilbert, C. Pothoulakis, J. T. LaMont, and M. Yakubovich G487

Interstitial buffer capacity influences Na^+/H^+ exchange kinetics and oxyntic cell pH_i in intact frog gastric mucosa
U. Seidler, P. Stumpf, and M. Classen G496

Ion transport across the jejunum in normal and cystic fibrosis mice
B. R. Grubb G505

Activation of the hypothalamic dorsomedial nucleus stimulates intestinal motility in rats
B. Greenwood and J. A. DiMicco G514

Gastrin-CCK-B type receptors on human T lymphoblastoid Jurkat cells
J. Dornand, S. Roche, F. Michel, J.-P. Bali, S. Cabane, J. Favero, and R. Magous G522

Contractile mechanisms of canine colonic propulsion
A. K. Sethi and S. K. Sarna G530

No. 4. APRIL 1995

Central cholinergic and α-adrenergic mediation of gastric slow wave dysrhythmias evoked during motion sickness
W. L. Hasler, M. S. Kim, W. D. Chey, V. Stevenson, B. Stein, and C. Owyang G539

Medullary TRH is involved in gastric protection induced by low dose of kainic acid into the raphe pallidus
H. Kaneko, H. Yang, G. Ohning, and Y. Taché G548

Moluccella laevis lectin, a marker for cellular differentiation programs in mouse gut epithelium
P. Falk, R. G. Lorenz, N. Sharon, and J. I. Gordon G553

Intestinal digestion, absorption, and transport of structured triglycerides and cholesterol in rats
P. Tso, M. D. Karlstad, B. R. Bistrian, and S. J. DeMichele G568

Regulation of system y^+ arginine transport capacity in differentiating human intestinal Caco-2 cells
M. Pan, M. Malandro, and B. R. Stevens G578

Gastrin mediates the increase in gastric cell growth in uremic rats
E. Quintero, G. V. Ohning, M. del Rivero, H. C. Wong, J. H. Walsh, and P. H. Guth G586

Intrapancreatic zymogen activation and levels of ATP and glutathione during caerulein pancreatitis in rats
R. Lüthen, C. Niederau, and J. H. Grendell G592

Identification of CCK-A receptors on chief cells with use of a novel, highly selective ligand
T. K. Pradhan, J.-M. Qian, V. E. Sutliff, S. A. Mantey, and R. T. Jensen G605

Nuclear serine protease activity contributes to bile acid-induced apoptosis in hepatocytes
P. Kwo, T. Patel, S. F. Bronk, and G. J. Gores G613

Disruption of colonic electrolyte transport in experimental colitis
C. J. Bell, D. G. Gall, and J. L. Wallace G622

Regulation and localization of the insulin-like growth factor system in small bowel during altered nutrient status
D. E. Winesett, M. H. Ulshen, E. C. Hoyt, N. K. Mohapatra, C. R. Fuller, and P. K. Lund G631

Production and metabolism of dopamine and norepinephrine in mesenteric organs and liver of swine
G. Eisenhofer, A. Åneman, D. Hooper, C. Holmes, D. S. Goldstein, and P. Friberg G641

Prolonged ambulatory canine colonic motility
S. M. Scott, M.-A. Pilot, T. G. Barnett, and N. S. Williams G650

Ecto-adenosinetriphosphatase in rat small intestinal brush-border membranes
C. Schweickhardt, I. Sabolić, D. Brown, and G. Burckhardt G663

The selective beneficial effects of nitric oxide inhibition in experimental colitis
C. M. Hogaboam, K. Jacobson, S. M. Collins, and M. G. Blennerhassett G673

ATP-dependent bile acid transport across microvillous membrane of human term trophoblast
J. J. G. Marin, P. Bravo, M. Y. A. El-Mir, and M. A. Serrano G685

Involvement of capsaicin-sensitive primary afferent fibers in regulation of jejunal alanine absorption
C. F. Nassar, K. A. Barada, L. E. Abdallah, W. S. Hamdan, A. M. Taha, S. F. Atweh, and N. E. Saadé G695

Chyme transport patterns in human duodenum, determined by multiple intraluminal impedancometry
H. N. Nguyen, J. Silny, S. Wüller, H. U. Marschall, G. Rau, and S. Matern G700

Kinetics and uptake in vivo of oxidatively modified lymph chylomicrons
Y. Umeda, T. G. Redgrave, B. C. Mortimer, and J. C. L. Mamo G709

RAPID COMMUNICATION

Increased expression of sulfated gp300 and acinar tissue pathology in pancreas of CFTR(−/−) mice
R. C. De Lisle G717

No. 5. MAY 1995

Distension-induced electrogenic Cl^- secretion is mediated via VIP-ergic neurons in rat rectal colon
J.-D. Schulzke, E.-O. Riecken, and M. Fromm G725

Uptake and interconversion of plasma unesterified n−3 polyunsaturated fatty acids by the GI tract of rats
Å. Nilsson and W. Becker G732

Somatostatin receptor subtype 3 mediates the inhibitory action of somatostatin on gastric smooth muscle cells
Z.-F. Gu, V. D. Corleto, S. A. Mantey, D. H. Coy, P. N. Maton, and R. T. Jensen G739

Downregulation of hepatic β-adrenergic receptors after trauma and hemorrhagic shock
S. M. Tait, P. Wang, Z. F. Ba, and I. H. Chaudry G749

Mechanism of bile acid facilitation of biliary protoporphyrin excretion in rat liver
M. M. Berenson, M. Y. El-Mir, and L.-K. Zhang G754

Intestinal anaphylaxis: mediation of the response of colonic longitudinal muscle in rat
M. R. Oliver, D. T. M. Tan, and R. B. Scott G764

Effect of aging on the secondary esophageal peristalsis: presbyesophagus revisited
J. Ren, R. Shaker, M. Kusano, B. Podvrsan, N. Metwally, K. S. Dua, and Z. Sui G772

Neurons in the dorsal motor nucleus of the vagus may integrate vagal and spinal information from the GI tract
W. E. Renehan, X. Zhang, W. H. Beierwaltes, and R. Fogel G780

Interaction of endogenous nitric oxide and CGRP in sensory neuron-induced gastric vasodilation
R. Y. Z. Chen and P. H. Guth G791

Identification and characterization of a basolateral dicarboxylate/cholate antiport system in rat hepatocytes
U. A. Boelsterli, B. Zimmerli, and P. J. Meier G797

A forskolin-activated Cl^- current in mouse mandibular duct cells
A. Dinudom, P. Komwatana, J. A. Young, and D. I. Cook G806

Organization of the crypt-villus axis and evolution of its stem cell hierarchy during intestinal development
M. L. Hermiston and J. I. Gordon G813

Changes in enteric neural regulation of smooth muscle in a rabbit model of small intestinal inflammation
J. M. Goldhill, K. M. Sanders, R. Sjogren, and T. Shea-Donohue G823

K^+ channel opening mediates hyperpolarizations by nitric oxide donors and IJPs in opossum esophagus
F. S. Cayabyab and E. E. Daniel G831

Interferon-γ primes neutrophil-mediated gastric surface cell cytotoxicity
M. J. Lieser, R. A. Kozol, and S. D. Tennenberg G843

Galactosylated proteins are recognized by the liver according to the surface density of galactose moieties
M. Nishikawa, C. Miyazaki, F. Yamashita, Y. Takakura, and M. Hashida G849

Extracellular heterotrimeric laminin promotes differentiation in human enterocytes
P. H. Vachon and J.-F. Beaulieu G857

Effects of posture on gastric emptying of nonnutrient liquids and antropyloroduodenal motility
M. Anvari, M. Horowitz, R. Fraser, A. Maddox, J. Myers, J. Dent, and G. G. Jamieson G868

Epidermal growth factor secreted from the salivary gland is necessary for liver regeneration
D. E. Jones, Jr., R. Tran-Patterson, D.-M. Cui, D. Davin, K. P. Estell, and D. M. Miller G872

No. 6. JUNE 1995

Oxidation of glucose carbon entering the TCA cycle is reduced by glutamine in small intestine epithelial cells
C. E. Kight and S. E. Fleming G879

Platelet-activating factor stimulates gastric acid secretion in isolated rabbit gastric glands
I. Sobhani, A. Bado, L. Moizo, J.-P. Laigneau, T. Tarrade, P. Braquet, and M. J. M. Lewin G889

Central vagal activation by an analogue of TRH stimulates gastric nitric oxide release in rats
E. Saperas, M. Mourelle, J. Santos, S. Moncada, and J.-R. Malagelada G895

Dual regulation of cGMP formation by calcium in pancreatic acinar cells
A. S. Gukovskaya and S. J. Pandol G900

Alteration of cAMP-mediated hormonal responsiveness by bile acids in cells of nonhepatic origin
B. Bouscarel, S. Ceryak, T. W. Gettys, H. Fromm, and F. Noonan G908

Sodium-phosphate transporter adaptation to dietary phosphate deprivation in normal and hypophosphatemic mice
J. F. Collins, N. Bulus, and F. K. Ghishan G917

Gastric emptying of oil and aqueous meal components in pancreatic insufficiency: effects of posture and on appetite
B. I. Carney, K. L. Jones, M. Horowitz, W. M. Sun, R. Penagini, and J. H. Meyer G925

Role of nitric oxide in restitution of injured guinea pig gastric mucosa in vitro
A. Yanaka, H. Muto, H. Fukutomi, S. Ito, and W. Silen G933

PYY in brain stem nuclei induces vagal stimulation of gastric acid secretion in rats
H. Yang and Y. Taché G943

Role of nitric oxide in regulation of vascular resistance in postnatal intestine
C. A. Nankervis and P. T. Nowicki G949

Ectopic jejunal pacemakers after jejunal transection and their relationship to transit
J. J. Cullen, J. C. Eagon, F.-S. Hould, R. B. Hanson, and K. A. Kelly G959

Effect of NSAIDs on pepsinogen secretion and calcium mobilization in isolated chief cells
S. Fiorucci, L. Santucci, P. Gresele, O. Luinetti, and A. Morelli G968

Transient outward current in opossum esophageal circular muscle
H. I. Akbarali, N. Hatakeyama, Q. Wang, and R. K. Goyal G979

Liver ischemia-reperfusion increases pulmonary permeability in rat: role of circulating xanthine oxidase
A. Weinbroum, V. G. Nielsen, S. Tan, S. Gelman, S. Matalon, K. A. Skinner, E. Bradley, Jr., and D. A. Parks G988

Endogenous ET-1 contributes to liver injury induced by galactosamine and endotoxin in isolated perfused rat liver
T. Ohuchi, K. Tada, and K. Akamatsu G997

Responses of ferret lower esophageal sphincter to 5-hydroxytryptamine: pathways and receptor subtypes
L. A. Blackshaw, V. Nisyrios, and J. Dent G1004

Secretin at physiological doses inhibits gastric motility via a vagal afferent pathway
Y. Lu and C. Owyang G1012

Ryanodine-induced calcium release from hepatic microsomes and permeabilized hepatocytes
L. B. Lilly and J. L. Gollan G1017

A rat gastrin-human gastrin chimeric transgene directs antral G cell-specific expression in transgenic mice
T. C. Wang, M. W. Babyatsky, P. S. Oates, Z. Zhang, L. Tillotson, M. Chulak, S. J. Brand, and E. V. Schmidt G1025

Mechanism and timing of nasopharyngeal closure during swallowing and belching
K. Dua, R. Shaker, J. Ren, R. Arndorfer, and C. Hofmann G1037

Phosphoinositide synthesis in desensitized rat pancreatic acinar cells
J.-S. Lods, B. Rossignol, C. Dreux, and J. Morisset G1043

Role of amidation in bile acid effect on DNA synthesis by regenerating mouse liver
E. R. Barbero, M. C. Herrera, M. J. Monte, M. A. Serrano, and J. J. G. Marin G1051

Activation of MAP kinase kinase (MEK) and Ras by cholecystokinin in rat pancreatic acini
R.-D. Duan, C.-F. Zheng, K.-L. Guan, and J. A. Williams G1060

Diet-induced changes in gene expression of lactase in rat jejunum
T. Goda, H. Yasutake, Y. Suzuki, S. Takase, and O. Koldovský G1066

RAPID COMMUNICATION

Facilitated DNA transfer to rat submandibular gland in vivo and GRP-Ca gene regulation
B. C. O'Connell, K. G. Ten Hagen, K. W. Lazowski, L. A. Tabak, and B. J. Baum G1074
